Redmine - Defect #19438

Webrick WARN: "Could not determine content-length of response body"

2015-03-21 14:19 - Tobias Fischer

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Attachments		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	3.0.1

Description

Extracted from issue #19435:

Webrick WARNing in Redmine 3.0.1:

```
[2015-03-21 14:15:15] WARN  Could not determine content-length of response body. Set content-length of the response or set Response#chunked = true
```

Happens for all attachments (even images) when trying to download them.
Download works as expected, but the filesize is unknown.
Seems as if the HTTP header can't be set.

This wasn't a problem in redmine 2.6
