

Redmine - Feature #19488

Add ability to configure selectable issue states when creating new ticket

2015-03-25 21:44 - Maxim Krušina

Resolution: Duplicate	
Description Workflow allows great control about how can be changed issue states depending on roles, trackers, etc. But there is no way how to select which states can be used when creating a new ticket - now there are all states. I would like to configure also states for a new ticket - in my case I will filter off for example all closing states, like Duplicate, because there is no reason to create a new ticket with state Duplicate...
