

Redmine - Defect #1950

Content of the Milestone page is not converted.

2008-09-25 21:27 - Karl Heinz Marbaise

Status:	Closed	Start date:	2008-09-25
Priority:	Normal	Due date:	
Assignee:		% Done:	100%
Category:	Importers	Estimated time:	0.00 hour
Target version:	0.8	Affected version:	
Resolution:	Fixed		
Description During a test migration from Trac to Readmine it occurred that the text which is on the milestone page in trac is converted into the Description text and not as supplemental Wiki page (Wiki page) which can be attached to a Version. (Revision 1900 of trunk). I would suggest to simply convert the text on the milestone page into a supplemental wiki page (same name as the milestone) and all formatings etc. will work.

History

#1 - 2008-10-11 21:50 - Karl Heinz Marbaise

- File defect-1950.patch added
- Target version set to 0.8

Added a patch to solve the problem. Now the Description is left empty and the contents of the wiki page for the milestone will be converted into a wiki page and related to the milestone.

#2 - 2008-10-11 22:04 - Karl Heinz Marbaise

The time stamp of the created wiki pages for the milestones are not correct, but this can only be fixed in relationship with Issue #1949, where we get the correct time stamp of the milestone (milestone.completed).
An other part is the user name of the wiki pages for the milestones, which is currently hard coded (not good style). I think we should use the author name of the milestone.

#3 - 2008-10-19 10:59 - Karl Heinz Marbaise

- Status changed from New to Resolved
- % Done changed from 0 to 100

#4 - 2008-11-11 14:22 - Jean-Philippe Lang

- Status changed from Resolved to Closed
- Resolution set to Fixed

Committed in [r2011](#).
