Category:	Issues	Estimated time:	0.00 hour
Target version:			
Resolution:	Fixed		
Description			
A good idea might be to add an option `<<author>>` to 'assignee' select for issues.

a interesting feature will be assign to a project by author, so I can use email-import to create issue from one email address and automatically assign to right project

#4 - 2018-08-16 15:48 - Mikhail Oleynik

Any news on that?

Really useful feature to have...

And there is ready patch already added.

Please, increase its priority.

- Related to Feature #16045: Add "Author / Previous assignee" group to assignee dropdown in issue form added

#6 - 2021-02-04 09:30 - Ribald Drobens

It could be implemented as an option in the project settings "default assignee". Currently one can already select <<Me>> there, however, it resolves to my name instead of the respective issue creator.

I want the ticket assignee to be able to select "ticket author".

After processing the ticket, we ask the ticket creator to check the operation and close the ticket.

It is necessary to change the assignee of the ticket to the ticket author.

If the number of participants in the project is large, the task of selecting the person in charge is troublesome and can be mistaken.

I applied the patch in my test environment.

The screen looks like this.

Below is a patch code based on Redmine 4.2

If it is helpful for you, then I think it is good.

I posted a patch in [#16045#note-30](#) that includes this feature. It displays both the author and the prior assignee.

- Target version changed from Candidate for next major release to 6.0.0

Setting the target version to 6.0.0.

#14 - 2024-09-09 15:28 - Go MAEDA

- Target version changed from 6.0.0 to Candidate for next major release

#15 - 2024-09-15 08:41 - Go MAEDA

- File clipboard-202409151538-8vh4s.png added
- Status changed from New to Closed
- Target version deleted (Candidate for next major release)
- Resolution set to Fixed

#16045 added a new options group "Author / Previous assignee" to the assignee dropdown in the issue form. The assignee is listed as the first item of the group.
