<b>Description</b> When i created a new project with trackers selected the Redmine show message error: trackers is invalid  But all trackers exists.			

History

#1 - 2015-03-31 22:42 - Richard Fugisse

- Status changed from New to Resolved

I resolved this problem, the Redmine in a previous version allow create tracker with the same name, the tracker is invalid because this.

#2 - 2015-04-01 01:55 - Toshi MARUYAMA

- Status changed from Resolved to Closed

- Resolution set to Invalid
