

Redmine - Defect #19588

Invalid column size for language pt-BR

2015-04-10 16:05 - José Cavalcanti

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Database	Estimated time:	0.00 hour
Target version:		Affected version:	3.0.1
Resolution:	Invalid		
Description			
<p>I installed Redmine 3.0.1 recently with default language pt-BR, no problem during the instalation. However, when logging in the first time I got error 500. Looking logs I found:</p>			
<pre>mysql2::Error: Data too long for column 'language' at row 1</pre>			
<p>I saw the table users and confirmed the size of column language is 2, but the language I was trying to put is 'pt-BR' (size 4).</p>			
<p>After that I got another errors on non-created tables like `settings`</p>			
<p>Full error log:</p>			
<pre>mysql2::Error: Data too long for column 'language' at row 1: INSERT INTO `users` (`firstname`, `lastname`, `mail`, `language`, `login`, `hashed_password`, `admin`, `created_on`, `updated_on`) VALUES ('Administrator', 'Admin', 'tec.ic.gc@phoebustecnologia.com.br', 'pt-br', 'admin', '594e6525619e6b4f20c0f523c95b0f0830b9c013', 1, '2015-04-10 10:49:29.979955', '2015-04-10 10:49:29.979955') mysql2::Error: Unknown column 'roles.builtin' in 'where clause': SELECT 1 AS one FROM `roles` WHERE `roles`.`builtin` = 0 LIMIT 1 Started GET "/redmine/" for 127.0.0.1 at 2015-04-10 10:54:23 -0300 Processing by WelcomeController#index as HTML mysql2::Error: Table 'bitnami_redmine.settings' doesn't exist: SHOW FULL FIELDS FROM `settings` Completed 500 Internal Server Error in 0ms ActiveRecord::StatementInvalid (mysql2::Error: Table 'bitnami_redmine.settings' doesn't exist: SHOW FULL FIELDS FROM `settings`): app/models/setting.rb:186:in `check_cache' app/controllers/application_controller.rb:100:in `user_setup' Started GET "/redmine/" for 127.0.0.1 at 2015-04-10 10:56:31 -0300 Processing by WelcomeController#index as HTML mysql2::Error: Table 'bitnami_redmine.settings' doesn't exist: SHOW FULL FIELDS FROM `settings` Completed 500 Internal Server Error in 16ms ActiveRecord::StatementInvalid (mysql2::Error: Table 'bitnami_redmine.settings' doesn't exist: SHOW FULL FIELDS FROM `settings`): app/models/setting.rb:186:in `check_cache' app/controllers/application_controller.rb:100:in `user_setup'</pre>

- Status changed from New to Closed

- Resolution set to Wont fix

Please contact bitnami team.

#2 - 2015-04-10 16:23 - Toshi MARUYAMA

- Resolution changed from Wont fix to Invalid

#3 - 2015-06-25 23:53 - Jonatas Wesley Gonçalves

This is not a problem from Bitnami, its a problem in the migrate code of user table. I described the problem on the issue that i create today. [#20176](#)

I wrote the solution in the issue too.
