Redmine - Defect #19611

Hostname with port via colon gets shrinked in e-mail notifications

2015-04-13 21:44 - Ivan Petrov

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Email notifications		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Duplicate		**Affected version:**	3.0.0

Description

I successfully installed Redmine, I specified the hostname like myserver:12321 in the settings and it works.

But when I get e-mail notifications, I cannot follow the links in them, because they look like this: myserver/issues/43 but they should look like this: myserver:12321/issues/43 - so everithing after colon and colon itself disappeared, like it was escaped or something.

Why is this? What should I do to make links in e-mail notifications be correct?

Environment:
Redmine version 3.0.0.stable
Ruby version 2.0.0-p594 (2014-10-27) [i386-mingw32]
Rails version 4.2.0
Environment production
Database adapter Mysql2

Please update to Redmine 3.0.1.
As Toshi MARUYAMA said, it has been fixed by #19323 (Redmine 3.0.1).

#5 - 2015-04-19 16:15 - Ivan Petrov

Yes, updating Redmine to 3.0.1 resolved the problem. Thank you.
