Resolution:			**Affected version:**	3.0.0

Description

HI,

We have just migrated our projects from mantis to redmine3.0 on ubuntu 14.4.
migration of bugs went smoothly.

But we are facing very slow response on redmine pages from client end.

We tried lot of memory tuning options from google but none of the tricks worked.

Can anyone please help us to resolve this?

Thanks
-Suhas

This is not question, This is the problem we are facing... :)

We have already done searching forum and it did not help me.

Thanks
