

## Redmine - Defect #19693

### Context menu is unaware of the field permissions

2015-04-23 07:42 - Anonymous

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Issues	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	3.0.1
<b>Resolution:</b>			
<b>Description</b>			
User can see the field via context menu even if that field is not visible for that user. Steps to reproduce: Create a custom field with visibility set for Manager only. Log in as member and from the issue list, right click on the issue to see the hidden field.			

#### History

##### #1 - 2015-04-23 08:30 - Toshi MARUYAMA

- File admin.png added
- File member.png added
- File bool.png added
- Status changed from New to Needs feedback

I cannot reproduce on trunk r14192.

bool.png  
admin.png  
member.png

##### #2 - 2015-04-23 13:17 - Anonymous

- File CustomField Rating.png added
- File non\_member\_view.png added

Toshi MARUYAMA wrote:

*I cannot reproduce on trunk r14192.*

*bool.png  
admin.png  
member.png*

I've tried in a public project and restricted the access to some of the members

CustomFieldRating.png

I'm seeing this field as non member too

non\_member\_view.png

But non member is not able to see these fields in the issues view

I also had the same issue with redmine 3.0.1

But the one I was able to show is with 2.5.1.stable

Environment:

Redmine version 2.5.1.stable  
Ruby version 1.9.3-p231 (2012-05-25) [i386-mingw32]  
Rails version 3.2.17  
Environment production  
Database adapter MySQL2

**#3 - 2015-04-23 13:20 - Anonymous**

- File *CustomFieldRating.png* added

**#4 - 2015-04-23 13:33 - Anonymous**

- File *Admin\_issue\_view.png* added

- File *non\_member\_issue\_view.png* added

*Admin\_issue\_view.png*

Admin can see the two fields in the issue view

*non\_member\_issue\_view.png*

Non member is not able to see them there (this is correct) But he is able to see it in the context menu as in the above image

**#5 - 2015-04-23 14:09 - Toshi MARUYAMA**

- Status changed from *Needs feedback* to *Closed*

- Resolution set to *Cant reproduce*

Anonymous wrote:

```

| Ruby version 1.9.3-p231 (2012-05-25) [i386-mingw32]
```

Too old.

I tried list type custom filed on trunk, but I cannot reproduce.

Reporter deleted his account, so we cannot continue to discuss.

**#6 - 2015-04-24 06:20 - alex dl**

It can reproduced if we give add/edit issues permission to non member in a public project

**#7 - 2015-04-24 06:40 - Toshi MARUYAMA**

- Status changed from *Closed* to *New*

- Resolution deleted (*Cant reproduce*)

**#8 - 2015-04-24 06:53 - Toshi MARUYAMA**

- Status changed from *New* to *Needs feedback*

alex dl wrote:

I cannot reproduce.

**#9 - 2015-04-25 09:41 - Toshi MARUYAMA**

- Related to Defect #19163: Bulk edit form shows additional custom fields added

**#10 - 2015-04-25 09:44 - Toshi MARUYAMA**

- Related to deleted (Defect #19163: Bulk edit form shows additional custom fields)

**#11 - 2015-04-25 09:44 - Toshi MARUYAMA**

- Status changed from Needs feedback to Closed

- Resolution set to Duplicate

I think this is duplicate of #19163.

**#12 - 2015-04-25 09:56 - Toshi MARUYAMA**

- Status changed from Closed to New

- Resolution deleted (Duplicate)

**#13 - 2015-04-25 09:56 - Toshi MARUYAMA**

- Status changed from New to Needs feedback

**#14 - 2015-04-25 11:49 - Toshi MARUYAMA**

Toshi MARUYAMA wrote:

Sorry, #19163 fixed bulk edit form opened from context menu.

I still cannot reproduce this issue.

**#15 - 2015-05-14 13:30 - Tomasz O**

I have the same problem on:

Redmine version	3.0.2.stable
Ruby version	1.9.3-p484 (2013-11-22) [x86_64-linux]
Rails version	4.2.1
Environment	production
Database adapter	Mysql2
(all plug-ins disabled)	

My permissions are defined as below:

<http://static.pokazywarka.pl/bigImages/5872006/15200238.jpg?1431602605>

Please note that:

1. Target version should be 'read-only' since 'submitted', and the custom field 'resolution' should be read-only since stpassed
2. Custom field 'reason for nochange' should be 'required' and visible for 'nochange' status

I am trying to set status to 'nochange'

<http://static.pokazywarka.pl/bigImages/5872006/15200239.jpg?1431602605>

and I can see the following

<http://static.pokazywarka.pl/bigImages/5872006/15200240.jpg?1431602605>

1. Fields 'Target version' and 'resolution' are still available for edit
2. The custom field 'reason for nochange' is not displayed - although there is prompt that it can not be empty.
3. When I am selecting another value from the 'Status' list all fields remain unchanged, whereas some should become required or read-only.

I hope this helps with reproducing and solving this issue.

Tomek
