Redmine - Feature #1974

Add ability to remove custom queries

Description

Our Project manager and several developers have added many custom queries that are no longer useful for the project and the list of queries is huge. I didn't see a method to remove customer queries. I also looked in the 0.8 release and didn't see the feature in there.

I am respectfully submitting an enhancement request to add the ability to remove custom queries from the UI.

History

#1 - 2008-10-01 01:37 - Mischa The Evil

- Status changed from New to Resolved

- % Done changed from 0 to 100

At least in current trunk:

1. goto the custom-query (http://redmine.host.tld/projects/xxx/issues?query_id=xxx) while being logged-in as a user who is also flagged as an administrator
2. select "Delete"
3. select "Ok" in the pop-up to see the query disappear...

Plz check this and mark the issue as resolved if it's found... ;-)

HTH.
