Description			
Just upgraded to revision 1921. The "toc" macro -- which use to produce an eye-pleasing -- indented list (see FAQ) now produces a garish, un-indented bulleted list.

My "--" should have come after the closing paren: "... macro -- which use to produce an eye-pleasing, indented list (see [FAQ](#)) -- now ...". Also, replace "hard-to-parse" for "garish".

Note! This only affects the "Alternate" theme.

Just switched to the "Default" theme and noticed the toc looks fine there.
