Description			
Hi,			
I want to hide "Favourite projects" from MyPage. Becouse user with limited access to one projects available to see whole structude of the RedMine itself.			
Is it posible to do?			
ps: I tried severa plugins, like which ones hiding MyPage itself, but nothing happend. Thx for any help.

Or how its possible to hide MyPage itself?

#2 - 2015-06-07 08:00 - Toshi MARUYAMA

- Tracker changed from Patch to Feature
- Category changed from My page to Accounts / authentication
- Status changed from New to Closed

If you have feature request, please describe in general way at new issue.  
If you want **hide** custom filed at [account view](#), you need to uncheck "Visible".
