

## Redmine - Defect #19811

### Attachment back\_url in login

2015-05-11 14:52 - Anton Antilopa

<b>Status:</b>	New	<b>Start date:</b>	
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>		<b>% Done:</b>	0%
<b>Category:</b>	Attachments	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	3.0.2
<b>Resolution:</b>			
<b>Description</b>			
<p>When user needs to be authenticated to download an attachment, he/she logs in as usual, but because the back_url points to a file download instead of a HTML page, the login form stays visible.</p> <p>This is confusing some users. I believe the page should be refreshed automatically to show the welcome#index.</p> <p>Is this fixable? For now I just extended the attachment#show to also work for binary files (show the download link), but it doesn't look very good and it doesn't fix the attachment#download links in back_url, only the attachment#show ones.</p> <p><a href="#">EnvironmentEnvironment</a></p> <pre>Redmine version      3.0.2.stable Ruby version         1.9.3-p194 (2012-04-20) [x86_64-linux] Rails version        4.2.1 Environment          production Database adapter     Mysql2</pre>
