Redmine - Defect #19811

Attachment back_url in login

2015-05-11 14:52 - Anton Antilopa

Status:	New		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Attachments		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	3.0.2

Description

When user needs to be authenticated to download an attachment, he/she logs in as usual, but because the back_url points to a file download instead of a HTML page, the login form stays visible.

This is confusing some users. I believe the page should be refreshed automatically to show the welcome#index.

Is this fixable? For now I just extended the attachment#show to also work for binary files (show the download link), but it doesn't look very good and it doesn't fix the attachment#download links in back_url, only the attachment#show ones.

[EnvironmentEnvironment](#)

```
Redmine version            3.0.2.stable
Ruby version               1.9.3-p194 (2012-04-20) [x86_64-linux]
Rails version              4.2.1
Environment                production
Database adapter           Mysql2
```
