

## Redmine - Feature #19824

### Could redmine control permission of edit/delete my own issue

<b>Resolution:</b> Duplicate	
<b>Description</b> Hi guys,  I've searched issue repo and found out that <a href="#">#1248</a> and <a href="#">#7444</a> is similar to my request. But it seems <a href="#">#1248</a> is still 'NEW' for years, and <a href="#">#7444</a> is only patch of controlling issue permissions but not OWN issue perssions. What I need is permission control like redmine forums, which has 'Edit own message' and 'Delete own message option'.	
<b>Related issues:</b> Is duplicate of Redmine - Feature #5195: edit_own_issues and delete_own_issue... <b>New</b> <b>2010-03-26</b>	

#### History

##### #1 - 2015-06-12 03:40 - Toshi MARUYAMA
