Description
Would it be possible to get the textbox changed to a textarea? It would be easeier to add attachment-names to such field

Any possibility to get this implemented? Having to add new image-names to 40 different logo-signatures is pretty painful :-(

One new feature that would make this an easy task for the user, would be to add an image to the exclusion-list via the issue itself for administrators.

:maxlength => 60 for the textarea should be removed. 60 character is too short, and the similar fields such as "Allowed extensions" and "Disallowed extensions" don't have such a limitation.

I have updated the patch.
