**Description**

Reports tab in time entry sometimes does not show entire data for spent time.

For example, if i search data for date range across months, like starting from october 2014 till March 2015. And then if i select "Days" in details for report, i just get data till January.

What about rest 2 months? This was just example, the same happens in various cases.

**History**

**#1 - 2015-06-21 05:27 - Toshi MARUYAMA**

*- Priority changed from Urgent to Normal*

See Submissions.

I think your time entries are paging.
