Description

It seems by lib/redmine/imap.rb that we have two options:

- 1. set **move_on_success**: I will have my processed mail marked as seen and moved to another folder.
- 2. do not set **move_on_success**: I will have my processed mail marked as seen and deleted.

It seems to me that it would be more appropriate if not setting anything would keep the mail marked as seen in it's original folder. Nowadays we are used to keep our mail, not deleting them, right?
