+1, it is working in my production redmine - mixing up public and private queries is disturbing users

#2 - 2008-10-10 02:03 - Eric Davis

I like the idea of this request. I'd like to see each section labeled instead of a break. Something like:

```
h3 Custom queries

h4 Public queries
...

h4 Private queries
...
```

What about something like:
- All projects queries
- public
- private
- This project queries
- public
- private

#4 - 2008-10-25 06:41 - Eric Davis

- Assignee set to Eric Davis

#5 - 2009-04-15 18:03 - Mischa The Evil

- Category changed from Search engine to UI

#6 - 2010-10-25 17:02 - Eric Davis

- Assignee deleted (Eric Davis)

#7 - 2011-02-21 14:37 - Jean-Philippe Lang

- Status changed from New to Closed

Superseded by r4908.
