Description

Hi there,

I only noticed now, but in Administration > Groups, the groups are listed in alpha revert order, and I can't find any good reason why.

models/group.rb contains:

```
35 | scope :sorted, lambda { order(:type => :asc, :lastname => :desc) }
```

I changed "desc" to "asc" in my settings (Redmine 3.0.1), but I'm wondering if that should stay that way in next releases.
