

Redmine - Defect #20098

Issue query filters are removed when updating an issue through the context menu

2015-06-16 10:43 - Vincent Robert

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Issues	Estimated time:	0.00 hour
Target version:		Affected version:	3.0.3
Resolution:	Invalid		
Description			
Issue filters are reset after updating an issue through the context menu. I think the filters should remain after the action.			
How to reproduce:			
- select some filters in /issues page and apply them			
- right click on an issue to open the context menu			
- update an attribute			
The page is reloaded and filters are reset to defaults.			

History

#1 - 2015-06-27 08:59 - Jean-Philippe Lang

- Status changed from New to Needs feedback

I'm not able to reproduce with 3.0-stable or trunk:

- applied a tracker=defect filter from /issues
- updated an issue status from the context menu
- => the page is reloaded with the tracker=defect filter

#2 - 2021-02-27 21:29 - Marius BĂLTEANU

- Status changed from Needs feedback to Closed

- Resolution set to Invalid

No such issues in recent Redmine versions. Please reopen if you still experience this.
