Description

I created task which refers to other, opened isses #6 and #7.

In the issues menu links to #6 and #7 works correctly but in the report emails
they are links to "/issues/show/6" and "/issues/show/7", ie missing host name.

Host name exist in the link to the issue but not to these reference issues.

Revision 1161 - 2008-02-17 15:17 - Jean-Philippe Lang

Fixes:

- email notifications: host name is missing in generated links (#639, #201)
- email notifications: referenced changesets, wiki pages, attachments... are not turned into links (only ticket ids are)
- attachment links and inline images don't work in issue notes
