<b>Resolution:</b>	Fixed		
<b>Description</b>			
Steps to reproduce: <ul style="list-style-type: none"><li>- In Administration -&gt; Enumerations -&gt; Activities, mark some activities as not active.</li><li>- You can have however these activities activated in certain projects. So it is possible that someone will log time using by default non-active activities.</li><li>- Go to Projects -&gt; Overall spent time.</li><li>- Add Activity filter. Note that it will let you select only the by-default-active activities. &lt;- <b>Problem</b></li><li>- All activities should be shown in the filter. &lt;- <b>Expected behavior</b></li><li>- Even if you pick, by the Project filter, a particular project, it will not let you select activities that are particularly activated for this project.</li><li>- However, if you go to time report from a particular project, the activities filter will be customized correctly as per project settings.</li></ul> I suspect that these (different) issues have the same root cause: <ul style="list-style-type: none"><li>- #19656 Activities do not correspond to project when adding time from my page.</li><li>- #19657 Can't move one level up the last activity item.</li></ul>
