Target version:				
Resolution:	Duplicate		**Affected version:**	3.0.3

Description

Hi all,

I hope this is a mistake on my side but as far as I understand this might also be a bug in redmine.

If I try to post a new issue via the api to https://myredmine/issues.json I would use the following payload according to the documentation (http://www.redmine.org/projects/redmine/wiki/Rest_Issues):

```
{"issue": {
  "subject": "Test subject",
  "project_id": "myProject",
  "description": "foobar"
  }
}
```

Redmine now does not create the ticket but responses with a 422 and

```
{"errors":["Project cannot be blank","Tracker cannot be blank","Status cannot be blank"]}
```

After some testing I found a working payload:

```
{"issue": {
  "subject": "Test subject",
  "description": "foobar"
  },
  "project_id": "myProject"
}
```

My Environment:

```
Environment:
  Redmine version              3.0.3.stable
  Ruby version                 2.1.2-p95 (2014-05-08) [x86_64-linux]
  Rails version                4.2.1
  Environment                  production
  Database adapter             Mysql2
```

The issue does not show up on a 2.5.1 installation (both payloads work flawless):

```
Environment:
  Redmine version              2.5.1.stable
  Ruby version                 1.9.3-p194 (2012-04-20) [i486-linux]
  Rails version                3.2.6
  Environment                  production
  Database adapter             Mysql2
```

History

#1 - 2015-06-17 16:11 - Alexander Muthmann

I found a quick fix for me here:

in issues_controller.rb I reintegrated the method **find_project** and it's call in **before_filter**. This was removed in r13999
Most likely this is not the preferred way to solve it but this works as a quick fix for me.

#2 - 2015-06-18 07:00 - Mischa The Evil

Please see #19276.

#3 - 2015-06-18 08:39 - Alexander Muthmann

Thank you for this hint. I assume the change will be permanent and the calls to the api have to be changed to the "new" format.

#4 - 2015-06-29 04:05 - Go MAEDA

- Status changed from New to Closed

- Resolution set to Duplicate

According to #19276-8, it is expected behavior.

#5 - 2015-06-29 04:05 - Go MAEDA

- Is duplicate of Defect #19276: Creating new issues with invalid project_id should return 422 instead of 403 error added

#6 - 2016-11-23 10:32 - Go MAEDA

- Related to Defect #23766: API : creating issues with project identifier no longer possible added
