<b>Target version:</b>		<b>Affected version:</b>	
<b>Resolution:</b>			
<b>Description</b>			
<p>Ajax loading bar does not hide after the document jquery ajaxStart event fires it.</p> <p>Temporary workaround would be if we add:</p> <pre>function hideAjaxIndicator() {     \$('#ajax-indicator').hide(); } \$(document).ready(function () {     setTimeout(hideAjaxIndicator, 1000); });</pre> <p>to application.js in public/javascript which will force initial .hide on ajaxindicator.</p>			

#### History
