Redmine - Patch #2023

Migration from Trac to Redmine import of highlighting code is not correct

2008-10-11 20:28 - Karl Heinz Marbaise

Status:	Closed		**Start date:**	2008-10-11
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	100%
Category:	Importers		**Estimated time:**	0.00 hour
Target version:	0.8			

Description

During the migration from Trac to Redmine it happen that structures with things like
this

```
{{{
#!java
...
}}}
```

were not correctly converted.
They have to be converted into the following structure:

```
&lt;pre&gt;&lt;code class="java"&gt;
Java Code.
&lt;/code&gt;&lt;/pre&gt;
```

or other highlighting were not correctly converted.
