

## Redmine - Defect #20268

### "Display comments - in reverse chronological order" doesn't affect forums

2015-07-08 08:42 - Marc Richter

| <b>Description</b>   |           |                          |            |
| Hi everyone,   |           |                          |            |
| when a user has set "Display comments - in reverse chronological order" in his personal preferences, this seems to only affect comments in issues. |           |                          |            |
| It would be great if this would affect forums messages, also or if there were the same possibility to define this order for forums, too.           |           |                          |            |
| It seems as all redmine versions are affected, including latest.   |           |                          |            |
| <b>Related issues:</b>   |           |                          |            |
| Is duplicate of Redmine - Patch #11120: Order replies of messages boards base...   |           |                          | <b>New</b> |

#### History

##### #1 - 2015-07-08 11:42 - Mischa The Evil

- Is duplicate of Patch #11120: Order replies of messages boards based on user preference added

##### #2 - 2015-07-08 11:43 - Mischa The Evil

- Status changed from New to Closed

- Resolution set to Duplicate
