<b>Category:</b>	Text formatting	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>		<b>Affected version:</b>	3.0.4
<b>Resolution:</b>			
<b>Description</b>			
<pre>foo="bar"</pre>			
<p>The above was not entered with a trailing space yet the pre block processing added one.</p>			
<p>Oddly, no extra trailing space added for those:</p>			
<pre>foo="bar" # comment test=ok</pre>			
<p>So something special happens when a " ends a line.</p>			
<p>Reproduced on Redmine 3.0.4 with Firefox 39 and Chrome 43. This was observed long ago so it's not a regression recently introduced.</p>
