<b>Description</b>			
This patch allows plugins to add an item into /admin/index page. This introduces a new menu_name :admin.			
I think some of administrative operation should be appear in the page rather than :top_menu. If they appear in :top_menu, it is too noisy. e.g., management operation for mailing list integration feature.

- Status changed from New to Closed

Patch applied in [r2022](#) with slight changes.

To be consistent with other menu names, I named the menu :admin\_menu instead of :admin.

Thanks for your contribution.
