## History

### #1 - 2015-07-22 18:27 - Toshi MARUYAMA

- Status changed from New to Needs feedback

- Priority changed from Urgent to Normal

There is no useful log. Please post more logs.

Redmine version 2.6.1.stable

Why do not use latest 2.6-stable?

Ruby version 1.9.3-p194 (2012-04-20) [x86\_64-linux]

Too old.

### #2 - 2015-07-22 18:53 - Adriano Ceccarelli

I'm using version because this version is compatible with of the plugins.

To update the version of redmine, i need to schedule in my organization to converter to the new version.

Thanks by help.

### #3 - 2015-07-22 18:55 - Adriano Ceccarelli

I'm suspicious of the repo that was removed.

### #4 - 2015-07-23 14:12 - Toshi MARUYAMA

- *Status changed from Needs feedback to Closed*

- *Resolution set to Cant reproduce*

Log says "repository" is nil.

It never happens on clean Redmine.

It seems your plugins override it or database is broken.

Try without plugin and reopen if you sure Redmine core problem.
