

## Redmine - Feature #20398

### Use the issues field AND the issues status for issue done ratio

2015-07-23 17:00 - François Polubinski

<b>Status:</b> New	<b>Start date:</b>
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b>	<b>% Done:</b> 0%
<b>Category:</b> Issues	<b>Estimated time:</b> 0.00 hour
<b>Target version:</b>	
<b>Resolution:</b>	
<b>Description</b>	
I think it would be interesting to be able to use both functionality : <ul style="list-style-type: none"><li>- Use the issues field</li><li>- Use the issues status</li></ul>

I would like to use the issues status to set at 0% new tickets and at 100% closed tickets. But I want for example to leave the choice for others status (use issue field).
