Description			
Hi,			
In the "Spent time" panel on "My page", the "Activity" and "Project" columns don't wrap text, leading to unattractive formatting (see attached "screenShot1.jpg"). A little patch to "application.css" alters it so that those columns do wrap (see attached "screenShot2.jpg", and "application.css.diff").			
It may be design intent that they don't wrap, in which case of course reject this, but my users here like it better wrapping (as it did in early versions of Redmine), so I said I'd request the change.

Cheers,
