### Description

Footnotes support is not enabled for the Markdown formatter at the moment. I think it would be good if support for them is enabled. This can be done quite easily:

```
diff --git a/lib/redmine/wiki_formatting/markdown/formatter.rb b/lib/redmine/wiki_formatting/markdown/formatter.rb
index 17d94a1..fdf17fe 100644
--- a/lib/redmine/wiki_formatting/markdown/formatter.rb
+++ b/lib/redmine/wiki_formatting/markdown/formatter.rb
@@ -128,7 +128,8 @@ module Redmine
             :tables => true,
             :strikethrough => true,
             :superscript => true,
-            :no_intra_emphasis => true
+            :no_intra_emphasis => true,
+            :footnotes => true
          )
        end
      end
```

I did a quick test with footnotes support enabled and it seems to work properly OOTB. The feature with its syntax is described at the end of https://github.com/vmg/redcarpet#and-its-like-really-simple-to-use.

Thanks for catching this and transferring my textual patch. I missed that one completely.
Good to see some more eyes keeping a close sight at the issues pool :thumbsup: ;)
