

Redmine - Defect #2041

deleting auth methods fails without telling you why

2008-10-17 00:35 - Erik Ordway

Status:	Closed	Start date:	2008-10-17
Priority:	Low	Due date:	
Assignee:		% Done:	0%
Category:	UI	Estimated time:	0.00 hour
Target version:	0.8	Affected version:	
Resolution:	Fixed		
Description			
SO I had two ldap auth methods and wanted to delete one of them. Because the one I wanted to delete still had user assigned to the method it would not delete. After I removed the user it would successfully delete but until then there were no error messages. Only when it was successful was there a flash message.			

Associated revisions

Revision 1944 - 2008-10-24 17:39 - Jean-Philippe Lang

AuthSource list: display associated users count and disable 'Delete' button if any (#2041).

History

#1 - 2008-10-24 17:33 - Jean-Philippe Lang
