

Redmine - Defect #20425

fn1. not working in tickets

2015-07-28 14:58 - Robert Schneider

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:	Text formatting	Estimated time:	0.00 hour
Target version:		Affected version:	3.1.0
Resolution:			
Description			
In issues fn links don't work. In Redmine Guide (example) it is working, but not in issues. The foot note itself is rendered correctly but the link is not.			
Example:			
<code>This is a test. [1]</code>			
<code>fn1. Here is the footnote.</code>			
will be this:			
<code>This is a test. [1]</code>			
<code>¹ Here is the footnote.</code>			
So [1] looks like [1]. It is not replaced by a link to the foot note (with blue foreground color).

History

#1 - 2015-07-28 15:14 - Go MAEDA

Please try placing brackets just behind alphanumeric characters like the following:

```
This is a test[1].
```

#2 - 2015-07-28 22:36 - Michael Goegel

Hi Robert,

I encountered a similar problem using wiki. The footnotes only work directly after letters. Brackets and other special characters lead to the behavior you posted.

Regards

Michael

- Related to Feature #6269: RedCloth 4 support added

#4 - 2015-07-29 01:56 - Go MAEDA

I tested RedCloth 4.2.9 (not on Redmine). It can handle any of the following:

```
This is a test. [1]
```

```
This is a test.[1]
```

```
This is a test[1].
```

#5 - 2015-07-29 03:18 - Mischa The Evil

For clarity's sake: current Redmine's Textile implementation (customized RedCloth 3.0.4) only supports the syntax that is used in the third and last example in the previous note by Go MAEDA.

- *Status changed from New to Resolved*

Another test¹.

¹ Here is the footnote.

Okay, true. So this is not a bug/defect. Rather it can be seen as a lack of documentation. One just has to know how the footnote can be used. But of course, switching to the newer version of RedCloth would be nice.

Thank you for the fast treatment!
