Redmine - Defect #20469

Document Access

2015-08-04 05:38 - santhosh narayana

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Documents		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	2.5.1

Description

Have two projects : Project1, Project2

Member1 assigned to Project1, Member2 assigned to Project2.

Member1 uploaded document, doc1 in one of the issue under Project1
Member2 uploaded document, doc2 in one of the issue under Project2

Member1 able to access doc2 !
https://<application.com>/requests_download/40924

Member2 able to access doc1 !
https://<application.com>/requests_download/40923

Found that anyone can access any document - document added in wiki page, file uploaded in an issue, documents added in "Files" module.

Please let us know how to fix this ?

History

#1 - 2015-08-23 16:48 - Jan Niggemann (redmine.org team member)

- Due date set to 2015-09-05

- Status changed from New to Needs feedback

How are the members and roles set up? Are both members administrators? Do both projects share same root (look at RedmineProjectSettings)?

#2 - 2024-10-22 20:36 - Holger Just

- Due date deleted (2015-09-05)

- Status changed from Needs feedback to Closed

- Resolution set to Invalid

Redmine does not use the /requests_download/ID URLs. If you see these URLs in your Redmine, they are likely provided by a plugin. In that case, it's the duty of the plugin (resp. its authors) to correctly check permissions. Please contact the plugin authors instead.
