

Redmine - Defect #20470

Markdown Emphasis in a word didn't work properly.

Description

I was trying Markdown in 3.1.0.

According to <http://daringfireball.net/projects/markdown/syntax#em> it is possible to use emphasis inside a word.

Quote:

You can use whichever style you prefer; the lone restriction is that the same character must be used to open and close an emphasis span.

Emphasis can be used in the middle of a word:

```
un*frigging*believable
```

My Markdown code:

```
un*frigging*believable
un_frigging_believable
un***frigging***believable
un__frigging__believable
un___frigging___believable
```

HTML output:

```
<p>un*frigging*believable</p>
<p>un_frigging_believable</p>
<p>un*<strong>frigging</strong>*believable</p>
<p>un_<em>frigging</em>_believable</p>
<p>un_<strong>frigging</strong>believable</p>
<p>*this text is surrounded by literal asterisks*</p>
```

HTML output should be:

```
<p>un<em>frigging</em>believable</p>
<p>un<em>frigging</em>believable</p>
<p>un<em><strong>frigging</strong></em>believable</p>
<p>un<strong>frigging</strong>believable</p>
```

<p>un_friggingbelievable</p>

<p>*this text is surrounded by literal asterisks*</p>

Environment:

Redmine version 3.1.0.stable.14476
Ruby version 2.2.1-p85 (2015-02-26) [x86_64-linux]
Rails version 4.2.3
Environment production
Database adapter Mysql2

SCM:

Subversion 1.8.8
Git 1.9.1
