Assignee:	Jean-Philippe Lang	% Done:	0%
Category:	Translations	Estimated time:	0.00 hour
Target version:		Affected version:	
Resolution:	Invalid		
Description			
When an user apply a fix or close a ticket via scm commit message, redmine add a status something like this to ticket:			
Applied in changeset rXX.			
it is not yet in translations....			

History

#1 - 2008-10-18 21:16 - Azamat Hackimov

- Assignee changed from Azamat Hackimov to Jean-Philippe Lang

Confirmed.

xx.yml have string "text_status_changed_by_changeset", but I don't know why it this string untraslatable. I reassign this defect to jplang.

#2 - 2008-10-24 17:38 - Jean-Philippe Lang

- Status changed from New to Closed
- Target version deleted (0.8)
- Resolution set to Invalid

Actually, this string is localized (search for text_status_changed_by_changeset in lang files) but it uses the language that is set as the default language in the application settings, not the committer's language.
