

Redmine - Defect #20501

Empty divs when there are no custom fields on the issue form

Category:	Issues	Estimated time:	0.00 hour
Target version:	3.2.0	Affected version:	3.1.0
Resolution:	Fixed		
<b>Description</b> The DOM is getting polluted with unnecessary ``splitcontent`` divs for ``custom_field_values`` even when there are absolutely none defined. This limits theming splitcontent divs as it renders empty boxes...  Patch to get rid of the free extra divs is attached.
