Description	
Hello, That would be great, to have a feature - latest comment under issue, in the issue list. Functionality would be similar as description checkbox.

- File *redmine-last-note-patch.diff* added

I've developed a patch to offer this functionality in the latest version of redmine (3.2.0 and later). The patch actually offers the latest comment as an additional column, but it would be trivially easy to make this into a separate row.

This patch was created for and funded by Noble Markets (<http://noblex.io/>)
