Description
Things like ticket:123 or [ticket:123] or [ticket:123 this]@ are not correctly converted into Redmine. I have attached a patch to fix this.

Hi,

the line 266 of the patch is wrong, cause it will create a wiki link instead a link to an issue.
The following part

```
text = text.gsub(/\[ticket\:([^\ ]+)\ (.+?)\]/, '"\2":/issues/show/\1')
```

can be used instead to simulate the link to a particular issue using some different text.

Kind regards.
Karl Heinz Marbaise
