Target version:		Affected version:	
Resolution:	Fixed		

Description

I got the following warning while migrating database.

This is caused by a migration file 'db/migrate/20150730122707_create_imports.rb' which was added in [r14493](#).

```
== 20150730122707 CreateImports: migrating =====  
-- create_table(:imports)  
DEPRECATION WARNING: `#timestamps` was called without specifying an option for `null`. In Rails 5,  
  this behavior will change to `null: false`. You should manually specify `null: true` to prevent t  
he behavior of your existing migrations from changing. (called from block in change at /Users/maed  
a/redmines/redmine-trunk/db/migrate/20150730122707_create_imports.rb:10)
```
