Redmine - Defect #20583

Setting Category/Version as a required field causes error in projects without categories/versions

2015-08-20 16:49 - Robert Barnebeck

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:	Jean-Philippe Lang		**% Done:**	0%
Category:	Issues workflow		**Estimated time:**	0.00 hour
Target version:	3.2.0			
Resolution:	Fixed		**Affected version:**	2.5.3

Description
When I go to "Administration" --> "Workflow" --> "Fields permissions", then I can set the "Category" as required. The effect now is, that when I create or edit an issue, the field "Category" is required.
But if the project has no defined categories, this validation accidently tells me, that no category is selected. In my opinion the validation should only check in projects, where one ore more categories are present.

Don't require category or target version when they are not available (#20583).

History

I will +1 this as it's annoying to have to create a single category for a project when it's required for another project.
Ideally, however, this should be fixed as part of #1853 by having the workflow per-project.

#2 - 2015-09-28 16:28 - Go MAEDA

The same can be said about the "Target version".

I think that the cause of annoyance is that the user cannot know the field is required before submitting the form because "Category" and "Target version" are hidden when they don't have any value.

I think the solution for this issue is to implement #18004. It makes those fields visible at all time, so the user can understand the field is required at a glance whether or not those fields have values.

#3 - 2015-10-10 05:53 - Go MAEDA

- Related to Feature #18004: Do NOT hide category and version fields on issue form when no category or version is configured added

#4 - 2015-10-24 08:23 - Jean-Philippe Lang

- Subject changed from Setting Category as a required field causes error in projects without categories to Setting Category/Version as a required field causes error in projects without categories/versions

- Status changed from New to Closed

- Assignee set to Jean-Philippe Lang

- Target version set to 3.2.0

- Resolution set to Fixed

Fixed in r14733.
