Redmine - Defect #20700

RestAPI: how to set the version "start_date"?

2015-09-08 21:51 - T T

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	REST API		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	3.1.0

Description

I was using the python-redmine package for creating versions ("new sprints") programatically.
To my surprise the API only supports the "due_date" but not the "start_date" which is computed from the issues.
Is there a way to force the API to accept the "start_date"?

I was looking at this code:

https://github.com/redmine/redmine/blob/master/app/models/version.rb#L71

def start_date
@start_date ||= fixed_issues.minimum('start_date')
end

History

#1 - 2015-09-09 00:45 - Toshi MARUYAMA

- Status changed from New to Closed

- Resolution set to Invalid

As you can see in code, it is not able to set by web interface, too.
