Category:	LDAP		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	3.1.0

Description
I can`t save LDAP filter with non-english (russian) characters, because validation fails. But our AD groups contains it. For example:
Filter: (&(objectClass=user)(memberOf=CN=Программисты,OU=All groups,DC=organization,DC=local))

I make quick patch that fix it.

Try [#21453#note-4](#) instead.
