Target version:	0.8		
Resolution:	Fixed		

Description

I've created a small plugin for Redmine.
It adds a link "Synhronize with PRO", which larnches a script on server of my customers.
So could you please add a hook on the respositiry page show.rhtml just after the link "Statistics":

<%= call_hook(:view_project_repository_link, { :project => Herve Harster}) %>

And for english nd russian translation of the link name:

label_synhronize_with_pro: Synhronize with PRO - to en.yml
label_synhronize_with_pro: Синхронизировать с PRO - to ru.yml

Associated revisions

Revision 1948 - 2008-10-25 06:21 - Eric Davis

Added hook :view_repositories_show_contextual to allow adding items to the
repository's contextual menu.

#2073

History

#1 - 2008-10-25 06:17 - Eric Davis

- Due date deleted (2008-10-25)

- Status changed from New to Closed

- Target version set to 0.8

- % Done changed from 0 to 100

- Resolution set to Fixed

I've added the hook called :view_repositories_show_contextual in r1948. For example, to create a link to Google you can do this in your plugin:

```
class MyClassNameForHooks  < Redmine::Hook::ViewListener
  def view_repositories_show_contextual(context = { })
    link_to("This is a hook on #{context[:repository].id} with a link to Google", "http://google.com")
  end
end
```
