Description

   (Comes from #5490-97)

I've just updated from Redmine 3.0 to Redmine 3.1 just to get the fix for #5490, but it doesn't seem to be working for me.

I've configured "Parent task attributes > Priority" to "Independent of subtasks" (see Screenshot from 2015-10-14 11-59-18.png), but when I want to change the priority of a parent, the field is still grayed out (see Screenshot from 2015-10-14 11-59-28.png). Am I missing something?
