Redmine - Defect #21036

Problem with concurrent edition of issues - data loss

2015-10-21 00:02 - Danielle Gilge

Status:	Needs feedback		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Issues		**Estimated time:**	0.00 hour
Target version:				
Resolution:			**Affected version:**	2.6.1

Description

I apologize if I'm not submitting this correctly.

Here're the system details:
Environment:
Redmine version   2.6.1.stable
Ruby version   2.0.0-p594 (2014-10-27) [i386-mingw32]
Rails version   3.2.21
Environment   production
Database adapter   Mysql2
SCM:
Subversion   1.8.10
Git   1.9.5
Filesystem
Redmine plugins:
no plugin installed

We have found that when more than one person tries to edit an issue at the same time, we experience a loss of data. I couldn't find any report of this in the known bugs list, or any mention in the FAQ. I did a general search as well, and the only similar issue was for a wiki problem. #2876

History
