**Description**

When a user clicks on the logout button in the application, the users session ID is only deleted in the browser. However, the session actually stays open as the session is not terminated at serverside.

Redmine should keep track of valid sessions and terminate the session when the user logs out.

**Associated revisions**

**Revision 14735 - 2015-10-24 12:15** - Jean-Philippe Lang

Keep track of valid user sessions (#21058).

**Revision 14736 - 2015-10-24 12:20** - Jean-Philippe Lang

Config variable must be set (#21058).

Compare timestamps in seconds (#21058).

**History**

#1 - 2015-10-24 12:15 - Jean-Philippe Lang

- Status changed from New to Closed
- Resolution set to Fixed
