Redmine - Defect #21065

Transition state: wrong visualization & update on MS SqlServer

2015-10-26 11:48 - fabio meoli

Status:	Closed		**Start date:**	
Priority:	Normal		**Due date:**	
Assignee:			**% Done:**	0%
Category:	Database		**Estimated time:**	0.00 hour
Target version:				
Resolution:	Invalid		**Affected version:**	2.6.3

Description

Hi,

when you insert the transition state of a workflow in the "default section", redmine displays this in the "author" and "assignee" (the contents of the table record workflow seems correct).
Also no longer able to clear the two options. (If I repeat the action on MySql instead MS SQL it's all ok!).

Explanation
Initial Status: only one check is on

     img1.jpg

On "save", the check option are visualized on "author" and "assignee" section, instead on default transition state

     img2.jpg

The content of the workflow table on Ms Sql are correct but redmine visualizes the checks on wrong positions:

     img3.jpg

Another problem is on uncheck …

     img4.jpg

After the "save" the results are the same … nothing are changed; The trace of sqlserver show only "select" and "update" … but no "delete".

     img5.jpg

Our Environment:

    Redmine version   2.6.3.stable
    Ruby version   2.0.0-p643 (2015-02-25) [i386-mingw32]
    Rails version   3.2.21
    Environment   production
    Database adapter   SQLServer

SCM:

    Subversion   1.8.10
    Git   1.9.5
    Filesystem

Redmine plugins:

    no plugin installed

Adapter MS Sql Server

activerecord-sqlserver-adapter   3.2.13

- Category changed from Administration to Database

#2 - 2015-10-27 09:33 - fabio meoli

Sorry, I resolved.

The error was probably caused by the migration from MySQL to SQL Server 2014 Express.

I repeated migration creating new Sql Server db before, executed the "rake db:migrate RAILS_ENV=production", and then importing the data with the" SQL Server Import and Export Wizard" from old Sql Server db.

It's work fine now.
